

Aetna® Mental Well-Being

Behavioral health products and services

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).] Aetna Behavioral Health refers to an internal business unit of Aetna. Aetna®, CVS Pharmacy, Inc., which owns CVS® HealthHUB™ locations, and MinuteClinic®, LLC (which either operates or provides certain management support services to MinuteClinic-branded walk-in clinics) are part of the CVS Health® family of companies. For California residents only: telehealth services may be available with your primary care provider (PCP) or specialist. If you use services from a Third-Party Corporate Telehealth Provider, your medical records will be shared with your PCP or specialist. If you want to opt-out, please notify the Third-Party Corporate Telehealth Provider during your visit. In-network cost sharing will apply for all services received through the Third-Party Corporate Telehealth Provider and all out-of-pocket costs will accrue to the applicable deductible and/or out-of-pocket maximum.

How to use this guide

This guide provides an overview of the behavioral health programs and services we offer to your employees based on their mental health needs.

Page six depicts a grid of various conditions. You can click on each condition. It will take you to the pages that highlight products and services that we offer to your employees to support that condition. You'll find a link at the end of those services that will take you back to the grid.
