

Blue Shield of California (BSCA) Medical Plan Changes for the 2025 Benefits Plan Year

- Effective October 1, 2024 vasectomy services are covered at 100% for all plans.
- As communicated in late August, if you are currently enrolled in a BSCA TriNet-sponsored medical plan, due to a change in pharmacy information (RxBIN Number), new member ID cards were mailed out to all enrollees beginning in September. These ID cards were a reprint of your current card for the plan year ending December 31, 2024, with the new pharmacy Rx BIN number. There were no changes to member ID number, group number, policy number or other information.

The effective date on the new ID card showed 10/1/24 but was not indicative of the actual effective date of your coverage. **It is important to note that your member ID does not change and can be used for verification purposes.**

However, if you do make changes during open enrollment, you will receive another new member ID card for the new plan year beginning January 1, 2025. As a reminder, member ID cards are always available through the BSCA mobile app.

- Effective January 1, 2025, mail order Rx delivery currently provided by CVS Caremark will transition to Amazon Pharmacy. Any worksite employees with active mail order prescriptions will be notified of the transition in October.

In the event that any of your plans are eliminated and you are automatically enrolled in a different plan, if there is a conflict between the plan mapping on this document and the plan you are enrolled in (displayed on your confirmation statement), the plan on your confirmation statement shall control.
